

# IT Trends

Stephen Caponigro  
July 1, 2024

# OUTLINE

---

- **Executive Summary**
- **Introduction**
- **Methodology**
- **Results**
  - Visualizations - Charts
  - Dashboard
- **Discussion**
  - Findings & Implications
- **Conclusion**
- **Appendix**

# EXECUTIVE SUMMARY

---

- **Current Technology Usage Trend**
  - Language
  - Database
  - Platform
  - Web Frame
- **Desired Technology Usage Trend**
  - Language
  - Database
  - Platform
  - Web Frame
- **Demographics Survey**
- **Country & Gender Difference**

# INTRODUCTION

---

- **Analyze Current Trends in Technology**
- **Purpose of this Analysis**
  - Identify top skills in programming languages, databases, platforms, and web frames
  - Identify future skills requirements
  - Identify human resource gap in the industry
- **Audience for this presentation**
  - Programmers
  - IT Industry Leader
  - Computer Science Students

# METHODOLOGY

---

- **Data Wrangling**
  - GitHub job postings API using Python
  - Programming Languages annual salary
  - Stack Overflow Developer 2019 survey
- **Data Cleaning, Data Exploration**
  - Excel
  - Python
- **Data Visualization**
  - IBM Cognos
  - Tableau
- **Presentation**

# RESULTS

---

# PROGRAMMING LANGUAGE TRENDS

**Top 10 Languages Worked With**

**Top 10 Languages Desired Next Year**

# FINDINGS & IMPLICATIONS

---

## Findings

- JavaScript is currently the most used programming language throughout the world
- Python and TypeScript are becoming more popular
- HTML, CSS and SQL are still among the top programming languages

## Implications

- Web Development and Developers are still in high demand
- JavaScript, HTML, and TypeScript are essential to learn for web developers
- Python is highly desired, as it's the primary language used for AI development and ML

# DATABASE TRENDS

**Top 10 Databases Worked With**

**Top 10 Databases Desired Next Year**

# FINDINGS & IMPLICATIONS

---

## Findings

- MySQL is currently the most used database used in the world
- Microsoft SQL Server is still used by a lot of companies
- MongoDB and Redis are the most popular NoSQL Databases

## Implications

- Open-source databases such as MySQL are still preferred
- Software development and Big Data technology still use SQL
- NoSQL databases will have a significant impact on the future of relational databases

# DASHBOARD

---

Link to read-only version of IBM Cognos dashboard

[https://github.com/scaponigro/Business-Intelligence-Projects/blob/main/IBM Data Analyst Capstone Project \(Cognos Dashboard\).pdf](https://github.com/scaponigro/Business-Intelligence-Projects/blob/main/IBM%20Data%20Analyst%20Capstone%20Project%20(Cognos%20Dashboard).pdf)

# Current Technology Usage

Top 10 Languages Worked With

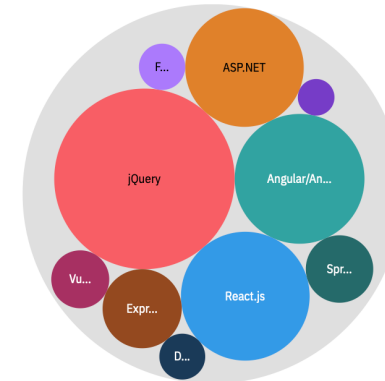

Top 10 Databases Worked With

Platforms Worked With

Top 10 Web Frames Worked With

# Future Technology Trends

Top 10 Languages Desired Next Year

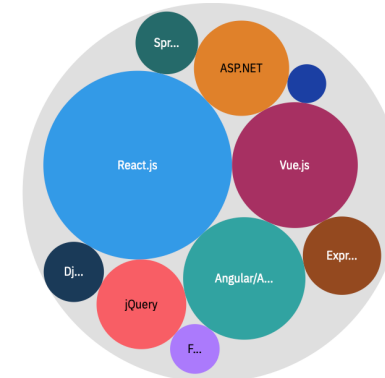

Top 10 Databases Desired Next Year

Platforms Desired Next Year

Top 10 Web Frames Desired Next Year

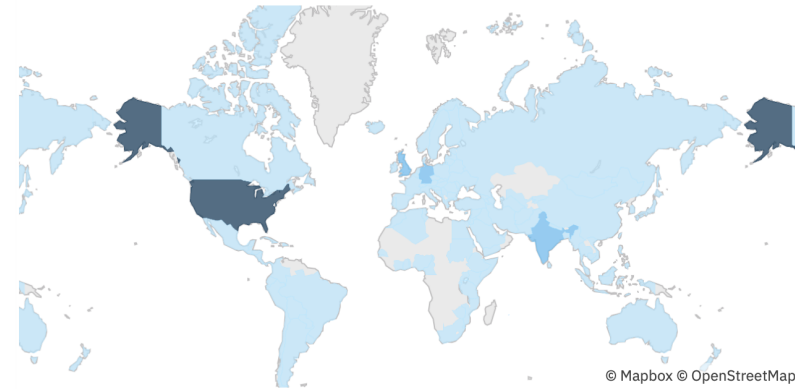

# Demographics

Respondent by Gender

Respondent Count by Country

Total Respondents by Age

Respondent's Education Level by Gender

# DISCUSSION

---

- **Technology Usage**
  - Current Trends
  - Future Trends
- **Discrimination in the IT Industry**
  - Gender
  - Age
  - Education

# OVERALL FINDINGS & IMPLICATIONS

---

## Findings

- IT usage trends change every year
- Most of the top technology in the world located in the USA
- There is extreme Gender and Age discrimination in the IT industry
- Only 6.5% Developers are Female

## Implications

- Programmers should always follow the latest technology trends
- More countries should have access and exposure to new technology
- Gender and Age should never be an issue when it comes to the use of technology

# CONCLUSION

---

- JavaScript is still the most used of all programming languages
- The findings underscore the dynamic nature of programming and the critical role of technology in driving innovation across various industries
- Database systems are essential to meet the demands of modern applications
- Understanding of programming has become diverse

# APPENDIX

Boxplot showing Age Difference of Developers

# JOB POSTINGS: City

---

Job Postings by City

# JOB POSTINGS: Experience

---

Job Postings by Programming Experience

# POPULAR LANGUAGES

---

Average Annual Salary

# Age vs Hours Worked Each Week
